SUMMARY

Frontend Engineer with hands-on experience building responsive web applications using **HTML**, **CSS**, and **JavaScript**. I enjoy crafting clean user interfaces and dynamic features that enhance user experience. Alongside frontend development, I have a strong foundation in **Data Structures and Algorithms**, including **Array, String, Linked List, Heap, Hashmap, Stack, and Queue**, which sharpen my problem-solving skills and help me write efficient, scalable code..

PROJECTS

Rasoi —Github —Live   [Rasoi.](#)

A responsive food ordering web app built with HTML, CSS, and JavaScript, featuring dynamic cart and clean UI.

Random Joke App—Github—Live   [Laughline](#)

A user-friendly random joke generator built with HTML, CSS, JavaScript with API integration featuring dynamic jokes.
